Executive Biographies

EXECUTIVE OFFICERS

Scott A. McGregor

President and Chief Executive Officer
Member of the Board of Directors

Scott McGregor is the President and Chief Executive Officer of Broadcom. In this role, he is responsible for guiding the strategic direction of the company, business development and day-to-day operations.

Mr. McGregor, who is also a member of the Board of Directors, joined Broadcom in January 2005 after serving since September 2001 as President and CEO of the Philips Semiconductors division of the Netherlands-based Royal Philips Electronics. At Philips, Mr. McGregor oversaw one of the world's largest semiconductor suppliers, with 34,000 employees in over 50 countries and nearly US\$6 billion in sales in 2004. In addition to his CEO role, he was also a member of the Group Management Committee of Royal Philips Electronics. He joined Philips Semiconductors in February 1998 as head of its Emerging Business unit, focusing on fast growing markets for smart cards, RFID, networking, digital media processing and computing, and leading the group to profitability and nearly US\$1 billion in sales.

Before joining Philips, from 1990 to 1998 Mr. McGregor served in various senior management positions, most recently as Senior Vice President and General Manager, at Santa Cruz Operation Inc. (SCO), a provider of network computing solutions. From 1985 to 1990 he served in senior positions at Digital Equipment Corporation (now part of HP) where he led the UNIX workstation software group and was one of the architects of the X Window System. Prior to joining Digital Equipment Corporation, he worked at Microsoft, where he was the Director of the Interactive Systems Group and the architect and development team leader of the original version of Microsoft Windows®. Prior to Microsoft, Mr. McGregor spent over six years in various positions at the Xerox Corporation's Palo Alto Research Center (PARC), where he was involved in designing software for the first personal computers employing graphical user interfaces.

Mr. McGregor received a B.A. in Psychology and a M.S. in Computer Science and Computer Engineering from Stanford University.

Executive Biographies

Scott A. Bibaud

**Executive Vice President & General Manager,
Mobile Platforms Group**

The Mobile Platforms Group headed by Scott Bibaud is responsible for Broadcom's cellular baseband processors, mobile multimedia and application processors and power management lines of business. End products include next generation cellular handsets and mobile devices and the critical software supporting new applications for many high-volume end markets.

Mr. Bibaud joined Broadcom in June 2000 through Broadcom's acquisition of Innovent Systems, Inc., a pioneer in the development and commercial integration of radio frequency (RF) integrated circuits for short-range wireless data communications. Mr. Bibaud became Senior Director of Marketing for Broadcom's Bluetooth Group in November 2004 and in 2006 was named Vice President and General Manager of Broadcom's Wireless PAN group which under his leadership, became Broadcom's fastest growing and largest line of business. Prior to joining Broadcom, Mr. Bibaud served as Vice President of Marketing at Innovent Systems, Inc. Before joining Innovent Systems Inc., Mr. Bibaud served in various marketing and management positions in the Wireless Communication Division of Rockwell Semiconductor Systems (now Conexant Systems, Inc.). Prior to Rockwell, Mr. Bibaud served as a communications system and hardware engineer at Raytheon Company, a technology leader specializing in state-of-the-art electronics for defense, homeland security, and other government markets.

Mr. Bibaud received a B.S. in Electrical Engineering from the Rensselaer Polytechnic Institute, and an M.B.A. from Harvard's Graduate School of Business.

Thomas F. Lagatta
Executive Vice President, Worldwide Sales

Tom Lagatta is Executive Vice President of Worldwide Sales of Broadcom Corporation. Mr. Lagatta is responsible for overseeing worldwide sales operations, including developing and executing the company's sales strategy and continuing to build and strengthen its world-class sales team. Mr. Lagatta has more than 26 years of industry experience. Mr. Lagatta joined Broadcom in May 2002 and initially served as Vice President & General Manager of the Client Server Networking business unit. He became Group Vice President, Enterprise Computing Group in September 2003. In June 2006, Mr. Lagatta was elected to his current role. Previously, from August 1999 to February 2002 Mr. Lagatta served as Vice President and General Manager of Anadigics, Inc., a semiconductor manufacturer, where he led the Fiber Communications Products Business Unit. Before joining Anadigics, from 1998 to July 1999, Mr. Lagatta served as Vice President of Business Development at Avnet, Inc., an electronic component distributor. Prior to Avnet, Mr. Lagatta served in various senior management and technical positions for over 11 years at Symbios Logic, a storage systems company.

Mr. Lagatta received a B.S.E.E. from Ohio State University and an M.S.E.E. from the University of Southern California.

Broadcom Corporation®

Executive Biographies

Daniel A. Marotta

**Executive Vice President & General Manager,
Broadband Communications Group**

The Broadband Communications Group headed by Dan Marotta is responsible for driving Broadcom's vision for enabling broadband services to and throughout the home, with end products and end markets focused on providing complete solutions to cable, xDSL and satellite broadband and broadcast access networks. Products from this Group are found in cable and DSL modems and gateways; digital cable and satellite set top boxes; digital TV; cable modem termination systems (CMTS) used by cable providers at their head-end equipment locations; and DSL access multiplexers used by service providers.

Mr. Marotta joined Broadcom in October 2002 and became Vice President and General Manager of the Broadband Communications Group in January 2003. Previously, from March 1999 to April 2002 Mr. Marotta served in various senior management positions in the Digital Information Division at Conexant Systems, Inc., a semiconductor manufacturer, the most recent of which was Senior Vice President and General Manager. In May 2002 Mr. Marotta was promoted to Chief Operating Officer of the Broadband Communications Segment at Conexant. Prior to joining Conexant, from 1996 to 1999 Mr. Marotta served as Director of Engineering at Brooktree Corporation, a semiconductor manufacturer, and later as Vice President of Engineering at Rockwell Semiconductor Systems, after Rockwell Semiconductor acquired Brooktree in 1996.

Mr. Marotta received a B.S.E.E. from the State University of New York at Buffalo.

Executive Biographies

Rajiv Ramaswami
Executive Vice President & General Manager,
Network Infrastructure Group

The Network Infrastructure Group, headed by Rajiv Ramaswami, is responsible for all Ethernet controller, switching and physical layer products, optical solutions, storage products, security and embedded processors. The Group's products and technologies are targeted to enterprise, wide area network (WAN), metropolitan, small-to-medium-sized business (SMB) and small office/home office (SOHO) markets. End products offered by this Group include Ethernet controllers for notebooks, desktops and servers; storage silicon solutions; and physical layer devices, optical solutions, switches, security and embedded processors for Layer 2 to Layer 7 switches, routers and security appliances — equipment that delivers and manages the flow of voice, video and data services within and across networks.

Mr. Ramaswami joined Broadcom and was named Executive Vice President & General Manager, Network Infrastructure Group in February 2010. Mr. Ramaswami was previously at Cisco Systems, Inc. where he most recently served as Vice President and General Manager of the Cloud Services and Switching Technology Group. Mr. Ramaswami joined Cisco in 2002 and served as Vice President and General Manager for a variety of Business Units in Optical, Switching, and Storage Networking. Prior to Cisco, Mr. Ramaswami held various technical and leadership positions at Xros, Tellabs and IBM's T.J. Watson Research Center.

Mr. Ramaswami holds M.S. and Ph.D. degrees in Electrical Engineering from the University of California, Berkeley and a B. Tech. degree from the Indian Institute of Technology in Madras. He holds 33 U.S. patents primarily in optical networking, and has coauthored a textbook "Optical Networks: A Practical Perspective". He is a Fellow of the IEEE and a Distinguished Alumnus of the Indian Institute of Technology in Madras.

OTHER ELECTED OFFICERS

Henry Samuelli, Ph.D.
Chief Technical Officer

Dr. Henry Samuelli is a Co-Founder of Broadcom Corporation and currently serves as its Chief Technical Officer (CTO). The Office of the CTO is responsible for driving the vision of Broadcom's research and development activities as well as helping coordinate corporate-wide engineering development strategies. Dr. Samuelli has over 30 years of experience in the fields of communications systems engineering and digital signal processing.

Dr. Samuelli served as CTO from the Company's inception in August 1991 until May 2008. In December 2009 he was re-elected CTO. He served as Co-Chairman of the Board from August 1991 until May 2003 and Chairman from May 2003 until May 2008. He also served as Vice President of Research & Development from August 1991 until March 2003. Since 1985 Dr. Samuelli has been a professor in the Electrical Engineering Department at the University of California, Los Angeles (UCLA), where he has supervised advanced research programs in broadband communications circuits and digital signal processing, and he has published over 100 technical papers in these areas. He has been on a leave of absence from UCLA since 1995. Dr. Samuelli is also a Distinguished Adjunct Professor in the Electrical Engineering and Computer Science Department at the University of California, Irvine. Dr. Samuelli was the Chief Scientist and one of the founders of PairGain Technologies, Inc., a telecommunications equipment manufacturer in the digital subscriber line (DSL) industry, and he consulted for PairGain from 1988 to 1994. From 1980 until 1985 Dr. Samuelli was employed in various engineering management positions in the Electronics and Technology Division of TRW, Inc., where he was responsible for the development of military broadband communications systems.

Dr. Samuelli received a B.S., M.S. and Ph.D. in Electrical Engineering from the University of California, Los Angeles. He is a named inventor in 59 U.S. patents. He is a Fellow of the Institute of Electrical and Electronics Engineers (IEEE), a Fellow of the American Academy of Arts and Sciences, and a Member of the National Academy of Engineering.
