

Broadcom Corporation®

Executive Biographies

Scott A. McGregor
President & Chief Executive Officer
Member of the Board of Directors

Scott McGregor serves as President and Chief Executive Officer of Broadcom Corporation. In this role, he is responsible for guiding the vision and direction for the company's growth strategy.

Mr. McGregor joined Broadcom in 2005 after serving since 2001 as President and CEO of Philips Semiconductors. In his role at Philips, he directed one of the world's largest semiconductor suppliers, with 34,000 employees in more than 50 countries and nearly US \$6 billion in sales. He was also a member of the Group Management Committee of Royal Philips Electronics. Mr. McGregor joined Philips in 1998 as head of its Emerging Business unit, focusing on fast growing markets for smart cards, RFID, networking, digital media processing and computing.

Prior to joining Philips, Mr. McGregor served in various senior management positions at Santa Cruz Operation Inc. (SCO), a provider of network computing solutions. He has also served in senior positions at Digital Equipment Corporation (now part of HP) and Microsoft, where he was the Director of the Interactive Systems Group and the architect and development team leader of the original version of Microsoft Windows®. Prior to Microsoft, Mr. McGregor served in various positions at Xerox Corporation's Palo Alto Research Center (PARC), where he was involved in designing software for the first personal computer employing graphical user interfaces.

Mr. McGregor received a B.A. in Psychology and a M.S. in Computer Science and Computer Engineering from Stanford University.

Broadcom Corporation®

Executive Biographies

Henry Samueli, Ph.D.

Chief Technical Officer
Member of the Board of Directors

Dr. Henry Samueli is a Co-Founder of Broadcom Corporation and serves as Chief Technical Officer (CTO). In this role, he is responsible for driving the vision of Broadcom's research and development activities as well as helping to lead corporate-wide engineering development strategies.

Dr. Samueli has more than 30 years of experience in the fields of communications systems engineering and digital signal processing. Since co-founding Broadcom, he has also served as Chairman and Co-Chairman of the Board and Vice President of Research and Development.

Since 1985, Dr. Samueli has been a professor in the Electrical Engineering Department at the University of California, Los Angeles (UCLA), where he has supervised advanced research programs in broadband communications circuits and digital signal processing, and he has published more than 100 technical papers in these areas. He has been on a leave of absence from UCLA since 1995. Dr. Samueli is also a Distinguished Adjunct Professor in the Electrical Engineering and Computer Science Department at the University of California, Irvine. Dr. Samueli was the Chief Scientist and one of the founders of PairGain Technologies, Inc., a telecommunications equipment manufacturer in the digital subscriber line (DSL) industry, and he consulted for PairGain from 1988 to 1994. From 1980 until 1985, Dr. Samueli was served in a variety of engineering management positions in the Electronics and Technology Division of TRW, Inc., where he was responsible for the development of military broadband communications systems.

Dr. Samueli received a B.S., M.S. and Ph.D. in Electrical Engineering from the University of California, Los Angeles. He is a named inventor in 59 U.S. patents. In December 2011 the Global Semiconductor Alliance (GSA) named Dr. Samueli as the winner of the Dr. Morris Chang Exemplary Leadership Award for his exceptional contributions to the semiconductor industry. He is a Fellow of the Institute of Electrical and Electronics Engineers (IEEE), a Fellow of the American Academy of Arts and Sciences, and a Member of the National Academy of Engineering.

Executive Biographies

Neil Y. Kim
Executive Vice President
Operations & Central Engineering

Neil Kim serves as Executive Vice President, Operations and Central Engineering of Broadcom Corporation. In this role, he is responsible for all manufacturing activities, including foundry operations and supply chain management. Mr. Kim is also responsible for development of analog mixed-signal and wired radio frequency (RF) technologies, manufacturing engineering, Broadcom's library of core technologies including the process technology direction, EDA and corporate quality assurance.

Mr. Kim joined Broadcom in 2000. In addition to his current role, he has held a variety of senior management positions including Vice President of Central Engineering, Senior Vice President of Central Engineering, Senior Vice President of Operations and Engineering.

Prior to Broadcom, he held a series of progressively senior technical and management positions at Western Digital Corporation, a data storage manufacturer, last serving as Vice President of Engineering.

Mr. Kim received a B.S.E.E. from the University of California, Berkeley.

Broadcom Corporation®

Executive Biographies

Thomas F. Lagatta

Executive Vice President

Worldwide Sales

Thomas Lagatta serves as Executive Vice President of Worldwide Sales of Broadcom Corporation. In this role, he is responsible for overseeing worldwide sales operations, including developing and executing the company's sales strategy and continuing to build and strengthen its world-class sales team.

Mr. Lagatta joined Broadcom in 2002 as Vice President and General Manager of the Client Server Networking business unit and became Group Vice President, Enterprise Computing Group in 2003.

Prior to joining Broadcom, he served as Vice President and General Manager of Anadigics, Inc., a semiconductor manufacturer, where he led the Fiber Communications Products business unit. Mr. Lagatta also served as Vice President of Business Development at Avnet, Inc., an electronic component distributor in addition to various senior management and technical positions at Symbios Logic, a storage systems company.

Mr. Lagatta received a B.S.E.E. from Ohio State University and an M.S.E.E. from the University of Southern California.

Broadcom Corporation®

Executive Biographies

Daniel A. Marotta
Executive Vice President & General Manager
Broadband Communications Group

Dan Marotta serves as Executive Vice President and General Manager of Broadcom's Broadband Communications Group. In this role, he is responsible for driving the company's vision for enabling broadband services to and throughout the home, with end products and end markets focused on providing complete solutions for cable, XPON, xDSL, fiber and satellite broadband access networks. Products from this group are found in cable and DSL modems and gateways; digital cable and satellite set top boxes; cable modem termination systems (CMTS) used by cable providers; and DSL access multiplexers used by service providers.

Mr. Marotta joined Broadcom in 2002 after serving in various senior management positions at Conexant Systems, Inc., a semiconductor manufacturer.

Prior to joining Conexant, Mr. Marotta served as Director of Engineering at Brooktree Corporation, a semiconductor manufacturer, and Vice President of Engineering at Rockwell Semiconductor Systems, following Rockwell Semiconductor's acquisition of Brooktree.

Mr. Marotta received a B.S.E.E. from the State University of New York at Buffalo.

Broadcom Corporation®

Executive Biographies

Rajiv Ramaswami

Executive Vice President & General Manager Infrastructure and Networking Group

Rajiv Ramaswami serves as Executive Vice President and General Manager of Broadcom's Infrastructure and Networking Group. In this role he is responsible for all Ethernet controller, switching and physical layer products, optical solutions, storage products, security and embedded processors. The group's products and technologies are targeted to enterprise, service provider and data center markets. End products offered by this group include Ethernet controllers for notebooks, desktops and servers; storage silicon solutions; and physical layer devices, optical solutions, switches, security and embedded processors for Layer 2 to Layer 7 switches, routers and security appliances - equipment that delivers and manages the flow of voice, video and data services within and across networks.

Mr. Ramaswami joined Broadcom in 2010 after serving as Vice President and General Manager of the Cloud Services and Switching Technology Group at Cisco Systems, Inc. where he also served as Vice President and General Manager for a variety of Business Units in Optical, Switching and Storage Networking.

Prior to joining Cisco, he served in various technical and leadership positions at Xros, Tellabs and IBM's T.J. Watson Research Center.

Mr. Ramaswami holds M.S. and Ph.D. degrees in Electrical Engineering from the University of California, Berkeley and a B. Tech. degree from the Indian Institute of Technology in Madras. He holds 33 U.S. patents primarily in optical networking, and has coauthored a textbook, "Optical Networks: A Practical Perspective". He is a Fellow of the IEEE and a Distinguished Alumnus of the Indian Institute of Technology in Madras.

Broadcom Corporation®

Executive Biographies

Robert A. Rango

Executive Vice President & General Manager

Mobile and Wireless Group

Robert Rango serves as Executive Vice President and General Manager of Broadcom's Mobile and Wireless Group. In this role he is responsible for leading wireless opportunities for the home, business and mobile markets. The group oversees Broadcom's cellular baseband, mobile multimedia, application processor, power management, Wi-Fi®, Bluetooth®, GPS, NFC and Voice over IP (VoIP) products. Broadcom's wireless connectivity and mobile solutions can be found in a variety of devices including mobile handsets, notebook/netbooks and desktop computers, tablets, IP phones, home gateways, and other wireless-enabled consumer electronics and peripherals. The group provides end-to-end solutions, including critical software to support new applications for many high-volume end markets.

Mr. Rango joined Broadcom in 2002. In addition to his current role, he has served as Vice President and General Manager of the Network Infrastructure Business Unit, Vice President and General Manager of the Mobile and Wireless Business Unit, Senior Vice President and General Manager, Wireless Connectivity Group and Executive Vice President, Wireless Connectivity Group.

Prior to joining Broadcom, Mr. Rango held several senior leadership positions at Lucent Microelectronics, a networking communications company, and Agere Systems, a semiconductor manufacturer, in its Optical Access, New Business Initiatives and Modem/Multimedia Divisions. He also held various positions with AT&T Bell Labs.

Mr. Rango received a B.S.E.E. from the State University of New York at Stony Brook and an M.S.E.E. from Cornell University.
