Technical Support

Symantec Technical Support maintains support centers globally. Technical Support's primary role is to respond to specific queries about product features and functionality. The Technical Support group also creates content for our online Knowledge Base. The Technical Support group works collaboratively with the other functional areas within Symantec to answer your questions in a timely fashion. For example, the Technical Support group works with Product Engineering and Symantec Security Response to provide alerting services and virus definition updates.

Symantec's maintenance offerings include the following:

- A range of support options that give you the flexibility to select the right amount of service for any size organization
- Telephone and Web-based support that provides rapid response and up-to-the-minute information
- Upgrade assurance that delivers automatic software upgrade protection
- Global support that is available 24 hours a day, 7 days a week
- Advanced features, including Account Management Services

For information about Symantec's Maintenance Programs, you can visit our Web site at the following URL:

www.symantec.com/techsupp/

Contacting Technical Support

Customers with a current maintenance agreement may access Technical Support information at the following URL:

www.symantec.com/techsupp/

Before contacting Technical Support, make sure you have satisfied the system requirements that are listed in your product documentation. Also, you should be at the computer on which the problem occurred, in case it is necessary to replicate the problem.

When you contact Technical Support, please have the following information available:

- Product release level
- Hardware information
- Available memory, disk space, and NIC information
- Operating system

- Version and patch level
- Network topology
- Router, gateway, and IP address information
- Problem description:
 - Error messages and log files
 - Troubleshooting that was performed before contacting Symantec
 - Recent software configuration changes and network changes

Licensing and registration

If your Symantec product requires registration or a license key, access our technical support Web page at the following URL:

www.symantec.com/techsupp/

Customer service

Customer service information is available at the following URL:

www.symantec.com/techsupp/

Customer Service is available to assist with the following types of issues:

- Questions regarding product licensing or serialization
- Product registration updates, such as address or name changes
- General product information (features, language availability, local dealers)
- Latest information about product updates and upgrades
- Information about upgrade assurance and maintenance contracts
- Information about the Symantec Buying Programs
- Advice about Symantec's technical support options
- Nontechnical presales questions
- Issues that are related to CD-ROMs or manuals

Maintenance agreement resources

If you want to contact Symantec regarding an existing maintenance agreement, please contact the maintenance agreement administration team for your region as follows:

Asia-Pacific and Japan	contractsadmin@symantec.com
Europe, Middle-East, and Africa	semea@symantec.com
North America and Latin America	supportsolutions@symantec.com

Additional enterprise services

Symantec offers a comprehensive set of services that allow you to maximize your investment in Symantec products and to develop your knowledge, expertise, and global insight, which enable you to manage your business risks proactively.

Enterprise services that are available include the following:

Symantec Early Warning Solutions	These solutions provide early warning of cyber attacks, comprehensive threat analysis, and countermeasures to prevent attacks before they occur.
Managed Security Services	These services remove the burden of managing and monitoring security devices and events, ensuring rapid response to real threats.
Consulting Services	Symantec Consulting Services provide on-site technical expertise from Symantec and its trusted partners. Symantec Consulting Services offer a variety of prepackaged and customizable options that include assessment, design, implementation, monitoring, and management capabilities. Each is focused on establishing and maintaining the integrity and availability of your IT resources.
Educational Services	Educational Services provide a full array of technical training, security education, security certification, and awareness communication programs.

To access more information about Enterprise services, please visit our Web site at the following URL:

www.symantec.com

Introducing Patch Policy updates

This chapter includes the following topics:

- [About the Patch Policy updates](#)
- [Getting Patch Policy updates through LiveUpdate](#)
- [Enhancements to the Patch module in Security Updates](#)

About the Patch Policy updates

The Patch Policy updates are released once a month. These updates add, enhance, and update the Patch policy and the associated template files on the Symantec ESM manager. Symantec updates the patch templates with the Symantec ESM policy installer.

Getting Patch Policy updates through LiveUpdate

There are two content update packages for the Patch Policies for different versions of ESM. For 6.0 and 5.5 managers, select the Patch Policies - OS Patches for 5.5/6.0 LiveUpdate package in the Enterprise Security Manager Content Updates section. For 6.5 managers, select the Patch Policies - OS Comprehensive LiveUpdate package in the Enterprise Security Manager 6.5+ Content Updates section. The Comprehensive package contains the checks that apply to the platforms that are supported only on ESM 6.5.

The policy installer executable applies to all versions of ESM and is available at the following location:

<http://securityresponse.symantec.com/>

Note: If Java is installed on a Solaris 9 agent, install the JDK using the tar archive file containing packages, available from Sun. If you install the JDK using a selfextracting shell archive file, the module will not report vulnerability information for it because no specific packages are installed.

Note: SU26 now supports Solaris x86. If you do not have the current modules for SU26, you will see duplicate messages for patches. To remove these duplicate messages, you must update your modules to SU26 or newer.

Enhancements to the Patch module in Security Updates

Every Security Update includes updates to the Patch module. Upgrading to the latest Security Update provides you with the most accurate patch detection.

xxx describes the enhancements to the Patch module in the latest Security Updates.

Table 1-1 Support and enhancements in Security Updates

Security Update	Upgraded support and enhancements
Security Update 20	Added support for Windows Server 2003 64-Bit Itanium-based systems Added support for SUSE Linux Enterprise Server 8
Security Update 21	Added support for HP-UX 11i v2 Added regular expression support for the file version field for Windows patches utilized in checking Windows Media Player patches
Security Update 22	Added support for AIX maintenance releases and superseding patches. Added support for the following operating systems: ■ IBM AIX 5.3 ■ Red Hat Enterprise Linux AS 3.0 on Itanium, EM64T, and AMD64 ■ Red Hat Enterprise Linux WS 3.0 on AMD64 ■ SUSE Linux Enterprise Server 9 for x86

Table 1-1 Support and enhancements in Security Updates *(continued)*

Security Update	Upgraded support and enhancements
Security Update 23	Added support for SuSE Linux Enterprise Server 9 on Itanium Added support for Red Hat Linux Workstation 3 for Xeon (EM64T) Added wildcard support for registry keys Added patch results summary support Added list installed patches support Added service state messages support
Security Update 24	Added support for Red Hat Enterprise Linux 4 ES (x86) Added Veritas Backup Exec product support Added script transfer to agent support Added Solaris Role Based Access Control support Added Solaris 2.10 zone support
Security Update 25	Added support for the following operating systems: ■ Red Hat Enterprise Linux 4 AS on Opteron and Itanium ■ Windows Server 2003 Enterprise 64-bit on Opteron and Xeon ■ Added UNICODE support for AIX 433
Security Update 26	Added support for Solaris 10 on x86, x64 Added File System Entitlement module
Security Update 27	Added support for the following systems: ■ Red Hat Enterprise Linux 4 AS (Xeon) ■ Windows Server 2003 R2 (x86, x64)
Security Update 28	Added support for SUSE Linux Enterprise Server version 10
Security Update 30	Added support for Microsoft Windows Vista (x86, Opteron and EM64T) Editions
Security Update 31	Added support for Red Hat Enterprise Linux 5 (x86, Opteron, EM64T, and IA64-bit)
Security Update 31.08	Added support for Red Hat Enterprise Linux 5.x on IBM z-series (s390x)
Security Update 32	Added support for SUSE Linux Enterprise Server 9/10 (Opteron and EM64T) and ESX Server 3.0.2 (x86, Opteron)

Table 1-1 Support and enhancements in Security Updates *(continued)*

Security Update	Upgraded support and enhancements
Security Update 34	Added support for the following operating systems: ■ Microsoft Windows Server 2008 (x86) ■ Microsoft Windows Server 2008 64-bit (EM64T, Opteron) ■ Microsoft Windows Server 2008 64-Bit Itanium ■ HP-UX 11.23 on PA-RISC
Security Update 35	Added support for the following operating systems: ■ HP-UX 11.31 on Itanium ■ HP-UX 11.31 on PA-RISC ■ IBM AIX 6.1 ■ Added support to handle Service Pack Entry for Windows Server 2003 64-bit (Opteron and EM64T) and Windows Vista 64-bit (Opteron and EM64T) template file See “Resolved issues” on page 32. ■ Added support to handle template size greater than 3MB for HP-UX See “Resolved issues” on page 32. Note: These issues are resolved in Security Update 2008.06.01 (SU 35)

About the Patch Policy

2008.08.01 release

This chapter includes the following topics:

- [What is new](#)
- [Template updates](#)
- [New patches](#)
- [Resolved issues](#)

What is new

This patch update for Symantec Enterprise Security Manager reports the operating system and application patches for UNIX operating systems. There are a total of 1647 new patch signatures and 157 updated patch signatures in 6 templates.

The following is a summary of the updates:

- patch.ph1 (HP-UX 11.00 - 11.31 PA-RISC - 289 new, 1 updated)
- patch.ph2 (HP-UX 11.23 - 11.31 for Itanium-based systems - 276 new, 1 updated)
- patch.plx (RedHat Linux and Enterprise Linux - 1044 new, 155 updated)
- patch.ps6 (Sun Solaris 2.6+ - 36 new)
- patch.p64 (Microsoft Windows Server 2003 x64 Editions - 1 new)
- patch.pwx (Microsoft Windows Vista for x64 - 1 new)

Note: The updated patches for SuSE Linux will be provided in the later Patch Policy releases.

Template updates

Table 2-1 lists the information about the templates that have been updated or added for various applications and operating systems.

Table 2-1 Templates information for Windows and UNIX operating systems

Template version	Template file	Application on operating system
3122	exchg2k.ps5	Microsoft Exchange Server 2000 on Microsoft Windows 2000 Server and Windows 2000 Advanced Server
3075	exchg2k3.p6s	Microsoft Exchange Server 2003 on Microsoft Windows Server 2003
3075	exchg2k3.ps5	Microsoft Exchange Server 2003 on Microsoft Windows 2000 Server and Windows 2000 Advanced Server
9	exchg2k7.p6s	Microsoft Exchange Server 2007 on Microsoft Windows Server 2003
6	exchg2k7.p8s	
6	exchg2k7.pS8	
8	exchg2k7.p64	Microsoft Exchange Server 2007 on Microsoft Windows Server 2003 64-bit (Opteron and EM64T)
3118	exchg55.ps5	Microsoft Exchange Server 5.5 on Microsoft Windows 2000 Server and Windows 2000 Advanced Server
29	ie.p3i	Microsoft Internet Explorer on Microsoft Windows Server 2003 for 64-Bit Itanium-based Systems
26	ie.p64	Microsoft Internet Explorer on Microsoft Windows Server 2003 64-bit (Opteron and EM64T)
2685	ie.p6s	Microsoft Internet Explorer on Microsoft Windows Server 2003

Table 2-1 Templates information for Windows and UNIX operating systems
(continued)

Template version	Template file	Application on operating system
2	ie.p8i	Microsoft Internet Explorer on Microsoft Windows Server 2008 for 64-bit Itanium-based Systems
5	ie.p8s	Microsoft Internet Explorer on Microsoft Windows Server 2008
5	ie.ps8	Microsoft Internet Explorer on Microsoft Windows Server 2008 64-bit (Opteron and EM64T)
3150	ie.ps5	Microsoft Internet Explorer on Microsoft Windows 2000 Server and Windows 2000 Advanced Server
3150	ie.pw5	Microsoft Internet Explorer on Microsoft Windows 2000 Professional
3159	ie.pwx	Microsoft Internet Explorer on Microsoft Windows XP Professional
15	ie.pwv	Microsoft Internet Explorer on Microsoft Windows Vista
1006	iis.p3i	Microsoft Internet Information Services on Microsoft Windows Server 2003 for 64-Bit Itanium-based Systems
1005	iis.p64	Microsoft Internet Information Services on Microsoft Windows Server 2003 64-bit (Opteron and EM64T)
1005	iis.p6s	Microsoft Internet Information Services on Microsoft Windows Server 2003
1004	iis.ps5	Microsoft Internet Information Services on Microsoft Windows 2000 Server and Windows 2000 Advanced Server
14	ie.pwx	Microsoft Internet Explorer on Microsoft Windows Vista 64-bit (Opteron and EM64T)
3105	iis.pw5	Microsoft Internet Information Services on Microsoft Windows 2000 Professional

Table 2-1 Templates information for Windows and UNIX operating systems
(continued)

Template version	Template file	Application on operating system
1004	iis.pwv	Microsoft Internet Information Services on Microsoft Windows Vista
3107	iis.pwx	Microsoft Internet Information Services on Microsoft Windows XP Professional
1004	iis.pwx	Microsoft Internet Information Services on Microsoft Windows Vista 64-bit (Opteron and EM64T)
3094	iis5.ps5	Microsoft Internet Information Services on Microsoft Windows 2000 Server and Windows 2000 Advanced Server
2975	isa2k.p6s	Microsoft Internet Security and Acceleration Server on Microsoft Windows Server 2003
2975	isa2k.ps5	Microsoft Internet Security and Acceleration Server on Microsoft Windows 2000 Server and Windows 2000 Advanced Server
3064	mdac.p6s	Microsoft Data Access Components on Microsoft Windows Server 2003
3064	mdac.ps5	Microsoft Data Access Components on Microsoft Windows 2000 Server and Windows 2000 Advanced Server
3064	mdac.pw5	Microsoft Data Access Components on Microsoft Windows 2000 Professional
3064	mdac.pwx	Microsoft Data Access Components on Microsoft Windows XP Professional
4	outlook.p3i	Microsoft Outlook on Microsoft Windows Server 2003 for 64-Bit Itanium-based Systems
4	outlook.p64	Microsoft Outlook on Microsoft Windows Server 2003 (Opteron and EM64T)
3136	outlook.p6s	Microsoft Outlook on Microsoft Windows Server 2003

Table 2-1 Templates information for Windows and UNIX operating systems
(continued)

Template version	Template file	Application on operating system
3132	outlook.ps5	Microsoft Outlook on Microsoft Windows 2000 Server and Windows 2000 Advanced Server
3133	outlook.pw5	Microsoft Outlook on Microsoft Windows 2000 Professional
3132	outlook.pwx	Microsoft Outlook on Microsoft Windows XP Professional
100	patch.p3i	Microsoft Windows Server 2003 for 64-Bit Itanium-based Systems
95	patch.p64	Microsoft Windows Server 2003 64-bit (Opteron and EM64T)
3260	patch.p6s	Microsoft Windows Server 2003
15	patch.p8i	Microsoft Windows Server 2008 for 64-bit Itanium-based Systems
25	patch.p8s	Microsoft Windows Server 2008
3017	patch.pai	IBM AIX
3702	patch.ph1	HP HP-UX 11.00 - 11.23 PA-RISC
88	patch.ph2	HP HP-UX 11.23 for Itanium-based systems
3353	patch.plx	Red Hat Linux and Enterprise Linux
3254	patch.ps5	Microsoft Windows 2000 Server and Windows 2000 Advanced Server
3357	patch.ps6	Sun Solaris 2.6+
27	patch.ps8	Microsoft Windows Server 2008 64-bit (Opteron and EM64T)
136	patch.psl	SUSE Linux
3250	patch.pso	Sun Solaris 2.5.1
3244	patch.pw5	Microsoft Windows 2000 Professional
3268	patch.pwx	Microsoft Windows XP Professional

Table 2-1 Templates information for Windows and UNIX operating systems
(continued)

Template version	Template file	Application on operating system
46	patch.pwv	Microsoft Windows Vista Enterprise 32-bit
48	patch.pwx	Microsoft Windows Vista Enterprise 64-bit (Opteron and EM64T)
18	patch_adv2k.ps5	Microsoft Windows 2000 Advanced Server
3	sharepoint.p6s	Microsoft SharePoint Services on Microsoft Windows Server 2003
8	sql.p3i	Microsoft SQL Server on Microsoft Windows 2003 for Itanium-based systems
7	sql.p64	Microsoft SQL Server on Microsoft Windows 2003 64-bit (Opteron and EM64T)
9	sql.p6s	Microsoft SQL Server on Microsoft Windows 2003
8	sql.p8i	Microsoft SQL Server on Microsoft Windows 2008 for Itanium-based Systems
10	sql.p8s	Microsoft SQL Server on Microsoft Windows 2008
3103	sql.ps5	Microsoft SQL Server on Microsoft Windows 2000 Server and Windows 2000 Advanced Server
6	sql.ps8	Microsoft SQL Server on Microsoft Windows 2008 64-bit (Opteron and EM64T)
3100	sql.pw5	Microsoft SQL Server on Microsoft Windows 2000 Professional
3099	sql.pwx	Microsoft SQL Server on Microsoft Windows XP Professional
5	sql.pwx	Microsoft SQL Server on Microsoft Windows Vista
9	sql.pwv	Microsoft SQL Server on Microsoft Windows XP Professional
3	visual2003.p6s	Microsoft Visual Studio .NET 2003 on Microsoft Windows Server 2003

Table 2-1 Templates information for Windows and UNIX operating systems
(continued)

Template version	Template file	Application on operating system
3	visual2003.ps5	Microsoft Visual Studio .NET 2003 on Microsoft Windows 2000 Server and Windows 2000 Advanced Server
3	visual2003.pw5	Microsoft Visual Studio .NET 2003 on Microsoft Windows 2000 Professional
3	visual2003.pwx	Microsoft Visual Studio .NET 2003 on Microsoft Windows XP Professional
11	wmplayer.p64	Microsoft Windows Media Player on Microsoft Windows Server 2003 64-bit (Opteron and EM64T)
16	wmplayer.p6s	Microsoft Windows Media Player on Microsoft Windows Server 2003
22	wmplayer.ps5	Microsoft Windows Media Player on Microsoft Windows 2000 Server and Windows 2000 Advanced Server
20	wmplayer.pw5	Microsoft Windows Media Player on Microsoft Windows 2000 Professional
19	wmplayer.pwx	Microsoft Windows Media Player on Microsoft Windows XP Professional
7	wmplayer.pwv	Microsoft Windows Media Player on Microsoft Windows Vista (32-bit)
6	wmplayer.pwx	wmplayer.pwx Microsoft Windows Media Player on Microsoft Windows Vista (64-bit)

New patches

New patches have been added for HP-UX, Red Hat Linux, and Solaris operating systems.

Resolved issues

The following issues are resolved in the Security Update 2008.06.01 (SU 35) release:

Windows Server 2003 64-bit (Opteron and EM64T) and Windows Vista 64-bit (Opteron and EM64T)

- If you find the following issues:
- The OS Patch module reports ‘No Problems Found’ message without any patch information.
 - In the Event log of ESM agent an application error is found.

Then to resolve these issues, do one of the following:

- Remove Service Pack Entry row from patch.p64 and patch.pwx template files, if the ESM agent has SU 34 or previous versions installed.
- Or
- Upgrade ESM agent to Security Update 2008.06.01 (SU 35).

HP-UX

Added support to the OS Patch module to handle patch.ph1 and patch.ph2 template files size greater than 3MB.

If the OS Patch module reports ‘Unexpected System Error’ message, then upgrade the ESM agent to Security Update 2008.06.01 (SU 35).
